TECHNICAL DATA

Model : HS

Model : HS-5/8

- Light and Manoeuvrable
- Compact
- Easy to operate
- Silent in operation
- Economical
- Minimum maintenance
- Versatile

Full Function Control Handle

Hand lowering is the key to productivity. The loads are conveniently deposited by three position (Lift, Neutral and Lower) control handle.

The ergonomically designed handle makes lifting loads and steering easier.

The neutral position eliminates back pressure from the pump thus allowing the operator to handle the load with ease.

The spring-loaded handle returns to vertical position when released.

A few strokes of the handle provide a full lift of 1600 mm.

Wheels

Steering and support wheels : 2 Nylon wheels \varnothing 180 x 50 mm
 Load Wheels : 4 Nylon wheels \varnothing 82 x 70 mm

Model : HS-10/12

Salient Features

PUMA Stackers - an indispensable auxiliary for all type of industries.

HS-5/8/10/12 are extremely versatile manually operated stackers. They are very useful for Loading, Unloading and Stacking operations. With a detachable platform on the fork they can be also used as an adjustable work table. (Option)
